

# A Spiritual Journey to The White Lion Heartland

South Africa   
March 30-April 12, 2010

At the dawn of the Aquarius Age,  
White Lions are reemerging...

Join us on this sacred land  
to establish a direct connection...

It is with great honor that I announce this upcoming spiritual journey to the heartland of the White Lions of Timbavati. Linda Tucker, owner of the White Lion reserve and head of their reintroduction program, invites us to hold a retreat in this sacred place among these sacred animals—an immense privilege considering the reserve is otherwise not accessible to the public.

—Maurice Fernandez

Spiritual leaders of Africa have recognized the White Lions to embody a supreme spiritual essence. These animals are extremely rare; the first scientific record of the White Lions backs just to 1975—they have only appeared in this remote northern eastern area of South Africa called Timbavati. Experiencing powerful dreams is said to be common when encountering these beings, something I can attest for when I had my first encounter back in 2008.

*“These animals are said to herald coming changes on this earth.”—Credo Mutwa*

The White Lions have reappeared on the planet at this particular time for important reasons. Yet, because of mismanagement by authorities they have disappeared from the wild in the early 90's and could only be found in captivity, until recently. With immense determination and equipped with a spiritual understanding of their role in the coming times on our planet, Linda Tucker has reintroduced the first pride to their natural and spiritual habitat in 2006. We will join monitoring teams to have a **direct experience with the White Lions**.

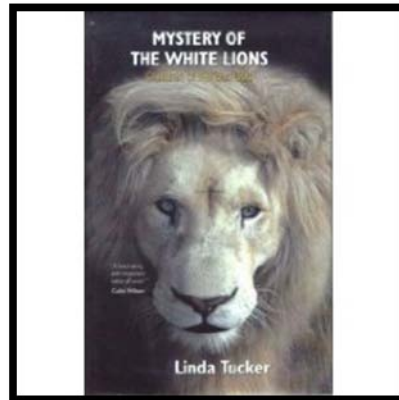

*Join us on this fantastic journey that will undoubtedly touch our very core.  
Participation will directly contribute financially to the White Lion cause.*

## **White Lion Experience: March 30-April 4**

- Game drives in the open game and scientific monitoring vehicle to meet **the Royal and Akeru Prides of the White Lions** (dawn and dusk).

- A lecture about **White Lion genetics** and the search for the genetic marker. Informal presentation by Jason Turner who is the lion ecologist heading up the White Lion Reintroduction program
- **Animal soul walk** under the canopy of the Klaserie River. 1 to 3 hourwalk with an expert Shangaan tracker retracing animal spoor. Second half of the talk in silence.
- **“Sleep out” under the stars** at the lion Lookout or reeded boma

## The Lion Shaman and the Age of Aquarius

With the Age of Aquarius slowly emerging, circumstances on the planet are unsettled—the foundations of our existence are shaken and threats to our survival keep increasing as ecological, political, and economical crises emerge. But in the midst of chaos, rays of a new dawn become visible for those of us who know how to look. As the North pole approaches the constellation of Aquarius marking the dawning of the new age, **the South pole points to its opposite constellation of Leo**. Is it coincidence

that these mythical lions reappear in the southern hemisphere in such a crucial time? Humans (Aquarius) and Lions (Leo), both sitting on the top of the food chain, each have a significant role in regulating life on earth and have responsibility in the unfolding of upcoming events—the mythical White Lions reemerge in this particular time and place of southern hemisphere directly aligned with the Sphinx of Egypt, symbol of fusion between lions and humans.

*Linda's experience with the lions is one that testifies for a clear inter-species communication and evolutionary bond. This journey is one to awaken the shaman within us and develop our connection with the animal world and beyond.*
